Jallandar City.
6th February, 22.

My dear Mirza sahib,

I recieved on the 2nd copy of my note on Subsidy question without any covering letter of yours, and I wired to you accordingly. Today I have recieved two covers, one containing Surplus note with your suggestions and a covering letter; and the other contains copy of H.E.H's letter to H.H. It has indeed given me immense pleasure to see that letter and also of the Resident. I had already written to H.H. saying how excellent all the arrangements have been, and over and above that most economical in the whole of

European clothes is for H.H. It will give me great pleasure if H.H. accepts that. The one in the frame with my monnogreme is for you, and the smallest is for Mr Urs, the A.D.C. who was looking after us when we were in Mysore. I shall be so much obliged if you will kindly take the trouble of delivering it to him.

The best time for H.H. to come to Delhi would be after the middle of March when The Prince has come.

Cogratulating you most heartily on your success in connection with The Prince's visit

with warmest regards

Very Sincerely Yours
Wazir-Hasan

India, and all this is due to you.
So far Mr Thompson has not sent for me. I have now reminded him and hope he will expedite. I have taken note of your suggestions re Surplus question and will act accordingly.
When I was last in Delhi the atmosphere was changing and I have every hope that things <u>will</u> improve. The Viceroy is sympa-thetic.
I am glad you had talks with Lord Cromer, I do hope he will remember and spek to The Viceroy. I think it is <u>absolutely</u> necessary that H.H. should come and see The Viceroy. You can very well understand that had it been possible, in my opinion, to save H.H. from all the trouble of this journey I would never have suggested this course, but as I have just said I think H.H. must see him and speak to him personally. If this is done I should be very hopeful. I am positively sure H.H.'s visit will without doubt be fruitful and our hands will be immensely strengthened. Writing is no good. When H.H. writes and informs The viceroy of his intended visit also the object The Viceroy will keep himself ready to talk the thing over, in the meantime when I will do the needful. Then on seeing him it is just possible that the matter, for all practicable purposes, may there and then be settled. This is my humble and well considered advice. If H.H. agrees then no time should be lost and the Viceroy should be informed.
As soon as I see Mr Thompson I will let you know the result of our interview.
I am so sorry for the delay in sending my photo. The reason is that we could not find Carder sahib's photograph. And still it is not found. I am therefore not withholding mine and have today sent by parcel three photographs of mine. The one in the
